Accessibility Guide for Guests with Cognitive Disabilities & Other Special Needs

Our Ride Accessibility Program (RAP) matches the individual abilities of our guests to the requirements of each ride. The RAP is designed to allow guests to fully participate in the enjoyment of our park while keeping in mind the safety requirements of our rides and attractions. The program was developed based on the requirements of the ride manufacturer and by evaluating the physical and mental attributes required to safely ride each ride. It is our policy to allow anyone to ride our rides and enjoy our attractions as long as they meet all these requirements and such that it does not present a potential hazard to the guest or to others.
